MANAGEMENT AND MAINTENANCE

IN TWO PARTS • PART TWO

McGRAW-HILL
PUBLISHING CO., INC.
330 WEST 42nd STREET
NEW YORK 36, N. Y.

TECHNOLOGY DEPT.

INDEX • VOLUME 109, JANUARY TO DECEMBER, 1951

ir Compressors—My best maintenance idea. H. M. Bradley ..... Mar. *86
ir Conditioning
Chemical-type air drying system pays for itself in two years. J. M. Neath ..... Apr. *80
Cool hot work areas in sizzling weather ..... July *120
Cooling pond made into roof garden and fish pool ..... Oct. *125
Esso Standard Oil Co. builds new plant office building to beat the heat ..... July *76
Four ideas for dust control and removal. R. A. Dilley ..... Dec. *88
Lesson from the Saudi Arabian desert ..... July 120
Quick heat from gas-fired units ..... Sept. *99
Refrigerated amplifier room lengthens tube life ..... Dec. *134
Some like it hot, some like it cold ..... Jan. 138
Space heaters and insulation beat temperatures of 30 below .. Feb. *99
nerican Management Assn.—Convenient new room makes conference click ..... Nov. *304
nerican Society of Training Directors—how to start a training program from scratch. M. J. Murphy ..... June *126

rushes, industrial—how power brushes solve production problems Dec. *76
ildings and Grounds
Built their plant around equipment ..... Apr. *B-92
Bumpy wood flooring ..... July 118
Choosing the right materials means an economical plant Apr. *B-84
Community likes this foundry Apr. *B-94
Community plants designed for low cost ..... Apr. *B-93
Conference rooms ..... Nov. *304
Cooling pond made into roof garden and fish pool ..... Oct. *125
orning Glass Works commemorates first 100 years ..... July *200
Designed with eye to future—and it's economical ..... Apr. *B-80
Electric heat melts snow off runway ..... Nov. *113
Esso Standard Oil Co. builds new plant office building to beat the heat ..... July *76
Go to Harvard—for the latest in classrooms ..... Aug. *204
Grade crossing made smooth May *140
How to cut labor cost of painting zinc-coated roofing ..... Jan. *138
How to figure and control moving costs. R. H. McCarthy .... Apr. *B-102
How to get the best plant from the materials available. K. K. Stowell ..... Apr. *B-70
How to select a plant site that fits the new rules for industrial dispersal ..... Oct. *130
How to solve your parking problems ..... Nov. *126
How you can build security into your plant. R. A. Dilley .... Apr. B-96
How you can control traffic if you have a disaster. C. A. Goodwin ..... Oct. *232
Little "floor-aches" kept from becoming big ..... May 142
New plants—keys to safe, speedy, economical expansion (ed) Apr. B-65
One ladder rail is better than two at the top of ladder. ..... Oct. *121
Precasting concrete foundations cuts cost by 10% ..... Apr. *B-82
Radiant heating keeps the floor dry ..... Sept. 146
Rubberized cement floors for workers foot comfort ..... Oct. *148
They built their plant around raw materials ..... Apr. *B-86
Two new plants that were built of noncritical materials .. Apr. *B-77
Upjohn's new plant is easy to use, easy to maintain ..... May *114
Walls of this modern plant were built lying down, then tilted into position ..... Apr. *B-74
Window screens ..... Apr. 88
You can save money by taking a new look at your chimney. A. M. Clark ..... Sept. *92
Business outlook, now to 1960. R. P. Ulin. (charts) ..... Oct. 108
From now to 1960 . . . these industries are due for fastest growth. R. P. Ulin ..... Nov. 132

C

Camera Tours
American Welding & Mfg. Co.—selling safety down the line—for a new world's record. R. A. Dilley ..... Jan. *124
Canada & Dominion Sugar Co.—they built their plant around the raw material ..... Apr. *B-86
Johnson-Carper Furniture Co.—15 production ideas that cut costs ..... Aug. *76
Philip Morris & Co.—better methods that save manpower ... June *94
Oran Co.—just a little plant with big-plant ideas ..... Nov. *104
Sylvania Electric Products Inc.—How better methods bring greater output per man-hour ..... Feb. *112
Telechron Inc.—better product at lower cost with statistical quality control ..... Mar. *88
Weatherhead Co.—radio instead of paperwork to speed your production ..... July *102
Chimneys—you can save money by taking a new look at your chimney. A. M. Clark ..... Sept. *92
Compressed Air—How to keep air pressure up. C. W. Gibbs ..... July *78
Controlled Materials Plan
Answers to questions about CMP. ..... June opp p 80
The controls you face in 1952. C. W. Boyce ..... Dec. W-1
Get ready now for a new CMP. C. W. Boyce ..... Jan. 68
How to get a CMP allotment and operate under the program's rules ..... May opp p 65
Material and production controls ..... Dec. W-1
Cooling pond made into roof garden and fish pool ..... Oct. *125
Cost Control
Budget for indirect costs that any plant can use. W. F. Clancy .... Aug. *74
How to figure and control moving costs. R. H. McCarthy ... Apr. *B-102
How the plant engineer can save tax money. J. K. Lasser .. Mar. 109
How six plants control their maintenance costs ..... Jan. *104
How to cut labor cost of painting zinc-coated roofing ..... Jan. *138
Maintenance control that really controls. W. C. Zinck .... Nov. *115
Maintenance experts answer 14 questions from industry .... Apr. *74
My best maintenance idea—how I put it to work. H. M. Bradley ..... Mar. *86
New way to load indirect labor. J. F. Gormeley (table) .... Oct. 144
One form controls all plant improvements ..... Oct. *146
Simple cost control system. J. T. Duffy, Jr. ..... Dec. *92
We started a budget—now the records show us how to cut costs. T. M. Shea ..... Apr. 168
What management expects for its maintenance dollar ..... Jan. *82
What plant engineers prescribe as the best way to get good maintenance ..... Jan. *90

D

Defense Mobilization
America's road to victory .... Jan. opp. p. 80
Answers to questions about CMP. ..... June opp. p. 80
Case study in civil defense .. Feb. *86
The defense production problem. ..... Mar. opp. p. 96
Directory of mobilization agencies. ..... Feb. 238
Engineers are getting scarcer and scarcer. S. C. Hollister .... Mar. *208
From destruction to production—in 38 days ..... Oct. *100
Get ready now for a new CMP. C. W. Boyce ..... Jan. 68
Here's how you can mechanize for CMP. C. W. Boyce ..... Apr. *70
High production isn't enough (ed) ..... Apr. 51
How everyone can get priorities for maintenance repair, operating supplies ..... Mar. opp. p. 64
How to get a CMP allotment and operate under the program's rules ..... May opp. p. 65
How to lose a contract—and a war (ed) ..... July 67
How to protect your people and property in an air raid. A. C. Warner ..... Feb. *90
How to protect your plant .. July 97
How to select a plant site that fits the new rules for industrial dispersal ..... Oct. *130
How you can control traffic if you have a disaster. C. A. Goodwin ..... Oct. *232
Job instruction training. M. J. Murphy ..... Jan. *120
The "Master Plan" for defense mobilization is now set ..... Feb. opp. p. 64
Material and production controls ..... Dec. W-1
Mobilization progress. C. W. Boyce ..... July W-1
Mobilization: six big problems and how Caterpillar Tractor plans to lick them ..... Mar. *68
Plant conversion for defense production. J. W. Pocock .... Sept. 230
To get fourth-quarter metal supply. C. W. Boyce ..... Sept. W-1
The Washington outlook for industrial plant expansion .. Apr. B-68
We're scrapping everything we can. P. D. Barton ..... Sept. *84
What industry must do now about defense mobilization (Mobilization Communique No. 5) ..... Jan. opp. p. 64
What you can do now to keep workers on the job. M. J. Murphy ..... Jan. 120
What you can do to make more steel—at a profit to yourself (ed) ..... Sept. 83
Why I'm for controls—for now. C. E. Wilson ..... Oct. *W-1

*Illustrated

You must act fast to keep your priorities on maintenance, repair, operation supplies. C. W. Boyce ..... Aug. W-1

E

Editorials
Excuses for poor materials handling ..... May 67
Here's a matter of plain good business ..... Oct. 83
High production isn't enough ..... Apr. 51
How to lose a contract—and a war ..... July 67
"If they'd only ask the maintenance department!" ..... Jan. 67
If you don't want any consultants around ..... Dec. 67
Men who speak for you in Washington ..... June 83
New plants—keys to safe, speedy economical expansion ..... Apr. B-65
Pinpointing the manpower problem ..... Mar. 67
Produce more—waste less. Feb. 67
The Wage Stabilization Board—its effect on your job ..... Nov. 83
What you can do to make more steel—at a profit to yourself ..... Sept. 83
Why not an idea-reporter in your plant? ..... Aug. 67

Electrical Applications
Add years to truck battery life. E. F. H. Grothe ..... July *101
Can electrical standards be eased to save materials? K. S. Geiges ..... Apr. 86
Check your motor ratings on old machine tools ..... June 136
Cold cathode lighting systems. George Van Artsdalen, W. M. Woodworth ..... Sept. *102
Electric furnaces cut costs, ease work load ..... Mar. *113
Electric heat melts snow off runway ..... Nov. *113
Electronic oven bakes cores—but not the workers ..... Feb. *99
Impact wrenches save dollars ..... Oct. *122
Induction heating salvages metal ..... Dec. *98
Lights show if soldering irons are left plugged in ..... Sept. *98
New cable cuts cost of power distribution system ..... Dec. *118
Pressurized d.c. equipment safe for dusty areas ..... May *119
Refrigerated amplifier room lengthens tube life ..... Dec. *134
Soldering irons with Koiled Kords ..... Mar. *132
Today's communication equipment. J. W. St. Andre ..... Sept. *115
Today's electrical heating equipment. G. A. Van Brunt ..... Feb. *104
Today's new wiring devices—bus duct. J. W. St. Andre ..... May *130
Today's welding equipment. J. W. St. Andre ..... July *84
Welded steel "islands" provide temporary power and air ..... Oct. *121

Electrical Controls
Adequate high-voltage equipment isolates trouble. R. R. Gobeli ..... June *106
Here's a break for electricians ..... Aug. 116
How to supply 3000 different voltages. F. J. McLaughlin ..... June *121
Today's transformers and accessories. J. W. St. Andre ..... Mar. *114
Unusual motor starter. J. W. St. Andre ..... Dec. 123

Electrical Distribution
Adequate high-voltage equipment isolates trouble. R. R. Gobeli ..... June *106
Are you using 13,000 kwh per worker? ..... Aug. 116
Flexible power system saves its extra cost the first year. A. F. Jones ..... Apr. 174
How to supply 3000 different voltages. F. J. McLaughlin ..... June *121
My best maintenance idea—how I put it to work. W. McK. Scott ..... Feb. *97
New cable cuts costs of power distribution system ..... Dec. *118
Three kinds of power in one plant. J. W. St Andre ..... Oct. 142
Today's new wiring devices—bus duct. J. W. St Andre ..... May *130
Today's transformers and accessories. J. W. St Andre ..... Mar. *114
Transformer oil lasts longer with inhibitor ..... May 140
Unit sub-station put on a balcony ..... July *118
Welded steel "islands" provide temporary power and air ..... Oct. *121

Electrical Maintenance
Add years to truck battery life. E. F. H. Grothe ..... July *101
Are you using your electrical department to full advantage? J. W. St Andre ..... Nov. 141
Booklet to help train maintenance electricians ..... Nov. 146
Carborundum's recipe: recognition and good morale. J. W. St Andre ..... Dec. 122
Do you get new machines off to a good start? J. W. St Andre Sept. 142
Electricians getting scarce—are you making your own? J. W. St Andre ..... Oct 140
Five-step battery maintenance. S. K. Lessey ..... Dec. *107
Haphazard replacement of fluorescent lamps. J. W. St Andre July *108
Have mercy on the poor electrician ..... Aug. 116
Here's a break for electricians ..... Aug. 116
Here's what comes ahead of preventive maintenance. J. W. St Andre ..... Sept. 142
How to keep out of union trouble if you use a contractor. J. W. St Andre ..... Sept 140
Lesson in cleanliness from Rome Cable ..... Aug. 116
Little plants can have electrical savvy, too. J. W. St. Andre Oct. 142
Management more receptive to engineers' ideas. J. W. St Andre ..... Dec. 123
My best maintenance idea—how I put it to work. W. McK. Scott ..... Feb. *97
Once-a-year shutdown for major electrical maintenance. Carmen Proxillo ..... Dec. 104
Paint on the bus-bar bolts! what for? ..... Oct. 140
Reflector lamps pay off in maintenance dollars. J. W. St Andre ..... Aug. *88
Should I use an electrical contractor? ..... Aug. 68
Three new ideas in electrical equipment. J. W. St Andre Dec. 123
3-step maintenance program cuts d.c. motor repair costs 80%. David Probst ..... Apr. *64
Time clocks a headache? ..... Dec. 132
Today's communication equipment. J. W. St Andre ..... Sept. *115
Today's welding equipment. J. W. St Andre ..... July *84
Training of maintenance electricians made easier ..... Feb. 124
You can group-replace incandescents, too. F. J. Vorlander Oct. *134

Employee Facilities
Cooling pond made into roof garden and fish pool ..... Oct. *125
Small washrooms in work areas ..... June *136
Soup kitchen provides hot lunch in small plant ..... July *96
Walk-it stool increases worker comfort ..... May *118

Employee Relations
Absenteeism—don't let it get away from you again. E. S. Grant ..... Apr. *52
Big-plant medical treatment for workers at small-plant cost. W. R. Bond ..... Sept. *122
British film: Chance of a lifetime ..... Apr. *76
Checkchart to size up personnel practices ..... Oct. 119
Checklist helps foremen handle personnel problems. W. S. Ferguson ..... June 109
Company signboard boosts employee relations ..... June *118
Department manned 100% by handicapped workers pays off June 106
Display windows show hobbies, products ..... July *95
Easy way to get good results with handicapped workers. M. J. Murphy ..... Feb. *94
Easy way to make your own plant your best labor market. Bethel & Berner ..... Aug. *90
Exhibit shows workers how their product is used ..... Apr. *73
Exit questionnaires help our employee relations. R. P. Kreuter ..... July *90
Five ways to get workers in a tight labor market. P. E. Black ..... Dec. *94
Go easy on the whistle, it may cost good will ..... Mar. 134
Hours of work vs. output. M. D. Kossoris ..... Feb. *98
How accident control charts can help your safety records. T. R. Leadbeater ..... June *92
How good a leader are you? Auren Uris ..... July 60
How good a leader are you . . . at communicating with employees. Auren Uris ..... Sept. *104
How good a leader are you . . . at getting better production. Auren Uris ..... Oct. *136
How good a leader are you . . . at shaping attitudes. Auren Uris ..... Aug. 104
How to cut reject costs 80%. D. H. Baum ..... Dec. *74
How to keep out of union trouble if you use a contractor. J. W. St Andre ..... Sept. 140
How to keep workers happy when you move ..... July *82
How to solve your parking problems ..... Nov. *126
How to start a training program from scratch. M. J. Murphy June *128
If you act as "personal shopper" for award winners, you can put new zip in suggestion program. R. H. Frame ..... Sept. *138
If you want a good company publication, take those shackles off your editor ..... July *136
It helps to have engineers talk to the mechanics. J. W. St Andre ..... Dec. 122
It takes less than a second to say "please" ..... July *243
The labor relations picture—seen from both sides ..... Jan. 240
Let workers tell your story for you ..... Apr. *62
Man with an idea. R. W. Sherman ..... Sept. *107
Manpower control charts. James Easland ..... Oct. *134
New quiz puts zip into foremen training program ..... Dec. 124
Old Tom Callahan's Christmas present. R. W. Sherman ..Dec. *97
RCA's New Triple-S campaign to save scarce materials ..... May *68
Rubberized cement floors for workers foot comfort ..... Oct. *148
Soup kitchen provides hot lunch in small plant ..... July *96
Tests help cut turnover rate 74% in five months. A. R. Michael ..... May *78
Time clocks a headache? ..... Dec. 132
Two big Christmas problems Dec. 80
What the changing salary rules mean to you. J. D. Cooper Dec. *68
What made Gertrude give—it's morale ..... Mar. *74
What to expect of your personnel people. J. W. Vanden Bosch (Management Data Sheet) Aug. 124
What you can do now to keep workers on the job. M. J. Murphy ..... Jan. 136
Your in-plant feeding: how good? ..... May *120

Employee Testing
Keep your young engineers. W. C. Van Cleaf ..... Aug. *98
Tests help cut turnover rate 74% in five months. A. R. Michael ..... May *78

F

Fire Prevention
Fire prevention—a two-sided responsibility ..... Aug. 120
From destruction to production—in 38 days ..... Oct. *100
Going to have a fire this winter? ..... Oct. 150
Heat-retardant paints and coatings. J. J. Duggan ..... Nov. *160
Six ways to make firefighter training stick ..... Nov. *138
10 ways to prevent flash fires. Ransom Tyler ..... Sept. *138
The watchman and fire protection ..... Sept. 146

Food Service
Here's an incentive plan that cuts cafeteria losses. Weirick & Mackay ..... Nov. 110
Your in-plant feeding; how good? ..... May *120

Foremen, Supervisors
Are you looking for a good plant engineer? ..... Oct. 150

*Illustrated

Checklist helps foremen handle personnel problems. W. S. Ferguson ..... June 100
Every foreman knows exactly what his responsibilities are .... Sept. *128
How good a leader are you? Auren Uris ..... July 68
How good a leader are you . . . at communicating with employees. Auren Uris ..... Sept. *104
How good a leader are you . . . at getting better production. Auren Uris ..... Oct *126
How good a leader are you . . . at shaping attitudes? Auren Uris ..... Aug. 104
Job instruction training. M. J. Murphy ..... Jan. *120
New quiz puts zip into foreman training program ..... Dec. 124
Nine experts tell you how to keep your foremen on your side ..... June *84
Refresher training helps us win our war on waste. Kialik & Lateiner ..... Mar. *98
"The sales manager gets too much money." R. W. Sherman .. Oct. *99
What made Gertrude give—it's morale ..... Mar. *74
"You can't put a mind on a conveyor." R. W. Sherman .. Nov. *123

G

Goleta Lemon Assn.—One man plus pushbuttons equals twelve men ..... Dec. *98
Great Britain—Movie review—chance of a lifetime ..... Apr. *76

H

Heating by radiation keeps floors dry ..... Sept. *146
Housekeeping and Sanitation
Seven extras your vacuum can give you ..... Aug. *108
Welded steel "islands" provide temporary power and air Oct. *121
We're scrapping everything we can. P. D. Barton ..... Sept. *84
Zipper conveyor system for carbon black. E. E. Forsythe .. Oct. *96

I

Incentives
Group incentive in job shop. Paul Broadstone ..... Sept. *132
Here's an incentive plan that cuts cafeteria losses. Weirick & Mackay ..... Nov. 110
Plan pays this operator to keep four machines running instead of three. P. B. Jones ..... Oct. *123
Standard times for handicraft jobs. R. P. Kreuter ..... Nov. *94
What makes America's industry strong. H. L. Waddell .... Feb. *80
What you can do about incentive plans. C. W. Boyce ..... Sept. W-3
Industry—What makes America's industry strong. H. L. Waddell .. Feb. *80
Instrumentation — Radioactive waves check thickness ..... Nov. *114
Inventory Control
ABC inventory analysis shoots for dollars. H. F. Dickie ..... July *92
Counting caliper speeds inventory of sheet stock ..... June *120
Here's how you can mechanize for Controlled Materials Plan. C. W. Boyce ..... Apr. *70
How to build a maintenance program now to fit the national emergency. Winston & Hamlin (Plant Operation Library) .. Mar. *97
Standardization—surest way today to get more for your inventory dollar. G. M. Barrow ..... Oct. 93

J

Job Evaluation — Manpower control charts. James Easland ..... Oct. *136

L

Lighting
Better light for machines ... Aug. *71
Cold cathode lighting systems. George Van Artsdalen, W. M. Woodworth ..... Sept. *102
Crane seats speed lighting maintenance ..... Jan. *140
Don't use a light meter when the work force is there ..... July 118
Haphazard replacement of fluorescent lamps. J. W. St. Andre July *108
How to make your president happy about his office lighting. Joe St. Andre ..... Oct. 140
Lighting contest ..... Dec. 123
Portable trouble light that doesn't glare ..... Nov. *146
Reel keeps light cord out of way ..... Aug. *71
Reflector lamps pay off in maintenance dollars. J. W. St. Andre ..... Aug. *88
Six ways to better inspection via good lighting ..... July *71
You can group-replace incandescents, too. F. J. Vorlander ..... Oct. *134
Lubrication—Automatic lubrication supplants oilcan and quickly pays off. C. E. Barrett ..... Dec. *82
Lubrication experts answer key questions on today's problems ..... May *232

M

Machinery foundation in rubber pit ..... Sept. *144
Maintenance Administrative Procedures
Are you a tradition-bound plant engineer? ..... Nov. 144
Getting ready for a plant vacation? ..... May 142
How the plant engineer can save tax money. J. K. Lasser .. Mar. 109
How six plants control their maintenance costs ..... Jan. *104
How to build a maintenance program now to fit the national emergency. Winston & Hamlin (Plant Operation Library) .. Mar. *97
How to build up your maintenance crew ..... Sept. 144
How to get your maintenance money's worth ..... Jan. *81
How to make a smooth move. J. F. Rafferty ..... Apr. B-99
How we schedule maintenance by the week. C. G. Wyder ..... Oct. *113
How you can make your plant maintenance program click. J. W. L. Benson ..... May *126
"If they'd only ask the maintenance department" (ed) .. Jan. 67
Learn to use the testing laboratory ..... Aug. 122
Maintenance control that really controls. W. C. Zinck ..... Nov. *115
Maintenance experts answer 14 questions from industry ... Apr. *74
Now we know what our maintenance workload is. G. L. Merkel ..... Apr. 160
One form controls all plant improvements ..... Oct. *146
Preventive maintenance ..... July 118
Production and maintenance chiefs hold weekly pow-wow. K. J. Mackenzie ..... Apr. 84
Progress photos used in planning new construction ..... Feb. *84
System to boost maintenance efficiency. E. W. Sutton ..... Aug. *112
Ten steps you can take for better maintenance service. James Stone ..... Dec. 112
Those who can—do. Those who can't—criticize ..... May 142
To improve your vision, swap jobs for a day ..... Oct. 148
Two heads are better than one ..... Mar. 132
What management expects for its maintenance dollar. Snyder, Britcher, Schrank, Dollmeyer, Brainard, Shoemaker, Greenfield, Von Brock, Madliger, Horstman, Openshaw, Trecker, Fanning, Allaback ..... Jan. *82
What plant engineers prescribe as the best way to get good maintenance. Munson, Muir, Johnston, Leopold, Jones, Hayden, Taylor, Pierce, Olchoff, Waligora ..... Jan. *90
Who does your maintenance estimating? ..... Aug. 122
Who says maintenance men aren't interested in their jobs? .. July 120
Who's to blame for sloppy maintenance? Carl Wyder ..... June *100
Who's to blame for sloppy maintenance? — Readers' comments ..... July 122
Maintenance Data Sheets
How to get the most out of rubber hose and belts. W. L. Smith ..... Apr. 90
How to get the most out of your fiber rope. S. A. Reed ..... Nov. *148
How to make tools last longer ..... Feb. 126
How to pick the right size butterfly valve ..... June 140
How to pick the right size steam valve ..... June 142
Maintenance of Equipment
Blast cleaning doubles tote box life ..... Oct. *120
Conservation Maintenance Plan for rubber ..... May 142
How 45 minutes a week will keep electric fork trucks rolling. A. E. Dorod ..... June *122
Weatherproof container protects hose ..... Apr. *72
Maintenance Operating Procedures
Dissolving the snow removal problem ..... Feb. 124
How to get the most out of rubber hose and belts. W. L. Smith (Maintenance Data Sheets) .. Apr. 90
How to get the most out of your fiber rope. S. A. Reed (Maintenance Data Sheets) ..... Nov. *148
How to move machines fast—and like it. J. W. Colody ..... Aug. *94
How you can make your plant maintenance program click. J. W. L. Benson ..... May *126
Learn to stretch those MRO dollars ..... Aug. 120
Own laundry washes wiping rags ..... Oct. *120
Scooters—for sudden service .. Oct. *112
Ten key steps you can take for better maintenance service. James Stone ..... Dec. 112
There ought to be an easier way ..... June 138
13 shortcuts to higher productivity ..... Sept. *108
Truck maintenance 45 minutes weekly ..... Sept. 144
"We can't repair it until the gas clears away" ..... Apr. *88
We centralized our maintenance and cut down time and costs. H. A. Fohl ..... Apr. 162
You can cut maintenance costs by better handling equipment Nov. *144
You can save money by taking a new look at your chimney. A. M. Clark ..... Sept. *92
Maintenance Shops, Tools, Equipment
Magnet retrieves tools in hard-to-reach places ..... June 138
Painting tools makes them hard to lose ..... Oct. *150
Phenolic bearing surfaces on heavy sliding parts eliminate wear ..... Oct. 150
Portable trouble light that doesn't glare ..... Nov. *146
Powder-driven stud-gun speeds machine installations ..... Apr. *73
Scaffold platform for overhead work ..... June *138
Stroboscope—a good maintenance tool? ..... Dec. 134
Today's welding equipment. J. W. St. Andre ..... July *84
Management Data Sheets—Toxic substances ..... Jan. 142
What to expect of your personnel people. J. W. Vanden Bosch ..... Aug. 124
Materials
Material and production controls. C. W. Boyce ..... Dec. W-1
Mobilization progress. C. W. Boyce ..... July W-1
NPA cracks down on CMP abuses —lightly ..... Nov. W-1
New process removes scale from forgings ..... July *198
To get fourth-quarter metal supply. C. W. Boyce ..... Sept. W-1
Materials Handling
Air lift roller section raises work to conveyor ..... June *119
Belt carries scrap from press to car ..... Nov. *114
Better handling: the best way to save manpower, speed production ..... May *81
Bigger unit load cuts handling and shipping costs 39%. K. I. Oxenrider ..... May *102
Bridge in the way, so crane runway makes S-curve ..... Nov. *98
Cable-car system used to move freight ..... Aug. *70
Cantilever rack eliminates pallets ..... Mar. *112
Cases in methods improvements—Burroughs Adding Machine Co. ..... Apr. *66
Cases in methods improvements—DeVilbiss Co. ..... Feb. *100
Central dispatch system permits three times as many loads with no extra trucks. H. A. J. Lessard ..... Oct. *111
Conveyor handles small parts Aug. *71
Crane accidents cut by ten safeguards. Burbank, Spousta & Westermeyer ..... Aug. *84

*Illustrated

Dolly, air-operated, handles and tilts reel ..... May *118
Drum of collapsible rubber deflates costs ..... May *129
Faster shipping—at 20% less cost. R. M. Smith ..... May *107
15 production ideas that cut costs ..... Aug. *76
Fingers for the "Iron Hand" for unloading any stamping press ..... June *218
Fingers instead of forks lift three crates at a time ..... Feb. *98
Flexible monorail crane handles variety of bar stock ..... Sept. *100
Fork trucks kept rolling by 45 minutes a week. A. E. Dorod ..... June *122
Forl trucks with extra flanges ..... June *118
From assembly to storage automatically ..... Mar. *80
Getting our supplies on pallets saves labor, materials, space. W. C. Foley ..... Feb. *74
Grab post protects controls on fork lift truck ..... Jan. *129
Handling racks for coiled steel .. Aug. *73
How 10 companies used better handling to save manpower, speed production (chart) .. May *86
How to palletize hard-to-handle products. R. E. Gilks ..... Nov. *124
How we handle bigger inventories, Bigelow-Sanford Carpet Co. A. O. Huck ..... May *92
Integrated system doubled our production. M. D. Covert ..... May *88
Leveler makes car loading a one-man operation ..... May *119
Lifting bar picks up 350-lb. plates safely ..... Feb. *99
Magnetic comparator sorts bolts, saves time and dollars .... July *96
Magnetic separators remove tramp iron in your process ..... Sept. *130
Making the equipment fit the job. J. H. Garard ..... May *104
Mechanized handling in job shop ..... Aug. *73
Mechanized press line boosts productivity 25%. A. A. Laurich ..... Sept. *120
Mechanized spinning cabinet ups production 300% ..... June *120
Mobile equipment solves three handling problems. L. J. MacDonald ..... July *110
More production in the same space. G. H. Cahoon ..... May *94
Move-and-load method cuts man-hours by 44%. C. G. Gruendling ..... May *100
Multideck conveyors multiply our output. E. P. Hesser ..... May *96
New and better way to store sheet-metal. H. A. J. Lessard .. June *116
New layout means less walking, less handling, more output. Edward Zakar ..... Jan. *72
On-the-floor roller conveyor loads elevators ..... Mar. *112
One man does the work of two—shearing steel sheets ..... May *91
One man plus pushbuttons equals twelve men ..... Dec. *98
One-way traffic in this stockroom ..... Sept. *97
Pallet racks which are adjustable ..... Apr. *57
Paperboard locks palletless unit load ..... Oct. *122
Pneumatic tube system ..... Oct. *106
"Run-around" conveyor layout cuts costs. N. H. Daehn .... Apr. *58
Pick-up device cuts out manual handling ..... Jan. *129
Scooters—for sudden service .... Oct. *112
Slanted window helps crane operator ..... Dec. *99
Spiral conveyor is missing link .. Nov. *91
Standardized casters save $25,000 ..... Oct. *120
Strain gage scale saves time in weighing operations ..... Sept. *99
Suspension arm helps handle kegs ..... Nov. *113
They built their plant around the raw material ..... Apr. *B-86
Tongs handle 30,000 lb. of steel ..... Mar. *112
Tote box cleaned by blast cleaner ..... Oct. *120
We keep production on the move. P. L. Clark ..... May *110
We pack four times as fast. P. W. Brannon ..... Sept. *90
You can cut maintenance costs by better handling equipment. Nov. *144
Zipper conveyor system for carbon black. E. E. Forsythe .. Oct. *96

Mechanical Power Transmissions—How to cut down time losses from anti-friction bearing failures ... Mar. 132
Match multiple V-belts for better results ..... Dec. *132

Methods Engineering
Air ejector unloads press .... Oct. *122
Better methods that save manpower ..... June *94
Bridge in the way, so crane runway makes S-curve ..... Nov. *98
British plants send five ideas that might work for you ..... Aug. *101
Cases in methods improvements—DeVilbiss Co. ..... Feb. *100
Central fileroom saves 'em plenty. C. E. Studen ..... Mar. *77
Die degreaser saves time ... Aug. *73
Doing it with mirrors .... Mar. *130
Electric impact wrenches save dollars ..... Oct. *122
Extruded propeller blade saves 40% labor, 50% material .. Apr. *72
15 production ideas that cut costs ..... Aug. *78
Fixture increases weld output 10% ..... Aug. *72
Gang air hose connector for assembly jobs ..... Mar. *113
How better methods can bring greater output per man-hour ..... Feb. *112
How power brushes solve production problems ..... Dec. *76
Induction heating salvages metal ..... Dec. *98
Just a little plant with big-plant ideas ..... Nov. *104
Keeping methods in step with product improvements .... Oct. *90
Magnetic comparator sorts bolts, saves time and dollars ..... July *96
Magnetic separators remove tramp iron in your process ..... Sept. *130
Mechanized handling in job shop ..... Aug. *73
Metal stitching cuts labor cost 65% ..... Nov. *113
Metal stitching cuts time 85% ..... Aug. *70
Methods research lab helps set shop tolerances that can be met. Fries & Thorud ..... Sept. *134
Multiple-spindle nut runner cuts assembly time by two-thirds Jan. *123
Notched-coil silver rings raise brazing output 62% ..... June *119
Plastic deflectors give better visibility on belt conveyor .... May *119
Production planning time cut in half when one man chaperons pilot runs. W. J. Tillman . July *72
Pry bar pulls rolls apart in emergency ..... July *96
Remote control and television run operation—inside plant and out ..... Jan. *129
Resistance soldering jig .... May *112
Seven extras your vacuum can give you ..... Aug. *108
Shadow provides guide line for cutting lumber to size .... Apr. *73
"Shoeshining" paint onto hard spots ..... Dec. *99
60% cut in machine noise. W. D. Boynton ..... June *113
Standardized casters save $25,000 ..... Oct. *120
13 shortcuts to higher productivity ..... Sept. *108
Ten ways to trim costs and boost profits ..... Dec. *100
Three-way sorting belt for cartons ..... Aug. *72
Tilting shelf unloads finished work from punchpress ..... July *95
Ultrasonic cleaning. C. L. Meyer, Jr. ..... Sept. *119
Weld seams smoothed by steam-rolling machine ..... Oct. *121
Wired television gives safe, exact control of pouring ..... July *95
Work-factor analysis saves money, time, complaints. P. J. Brady ..... June *110

Mobilization Communiques
Mobilization Communique No. 5—What industry must do now about defense mobilization ..... Jan. opp. p 64
Mobilization Communique No. 6—The "Master Plan" for defense mobilization is now set ..... Feb. opp. p 64
Mobilization Communique No. 8—How everyone can get priorities for maintenance, repair, operating supplies ..... Mar. opp. p 64
Mobilization Communique No. 9—Plant expansion plans for 1951 hit all-time high ..... Apr. opp. p 48
Mobilization Communique No. 10—How to get a CMP allotment and operate under the program's rules ..... May opp. p. 65
Mobilization Communique No. 11—Answers to questions about CMP ..... June opp. p 80
Mobilization Communique No. 12—Mobilization progress. C. W. Boyce ..... July W-1
Mobilization Communique No. 13—You must act fast to keep your priorities on maintenance, repair, operation supplies. C. W. Boyce ..... Aug. W-1
Mobilization Communique No. 14—All manufacturers who failed to file for a CMP allotment must act fast to get fourth-quarter metal supply. C. W. Boyce Sept. W-1
Mobilization Communique No. 15—"Why I'm for controls . . . for now." C. E. Wilson ..... Oct. *W-1
Mobilization Communique No. 16—NPA cracks down on CMP abuses—lightly ..... Nov. W-1
Mobilization Communique No. 17—Materials and production controls ..... Dec. W-1
Models—Scale models used in layout to blueprint at Kaiser-Frazer ..... June *88

Motors
Adequate high-voltage equipment isolates trouble. R. R. Gobeli ..... June *106
Check your motor ratings on old machine tools ..... June 136
Help for training maintenance electricians ..... Nov. 146
3-step maintenance program cuts d.c. motor repair costs 80%. David Probst ..... Apr. *64

N
Naval Supply Depot—grab post protects controls on fork lift truck Jan. *129
New York City Port Authority—case study in civil defense .... Feb. *86
New York City Port Authority—how to protect your people and property in an air raid. A. C. Warner ..... Feb. 90
Noise—60% cut in machine noise. W. D. Boynton ..... June *113

P
Painting
Heat-retardant paints and coatings. J. J. Duggan ..... Nov. *100
How to repaint a 150-ft steel stack ..... Apr. 88
Maintenance men discuss problems of training, painting and sanitation. B. J. Beitman .. June *244
Mechanized spinning cabinet up production 300% ..... June *120
Movable partitions make flexible paint spray booths ..... June *119
Painting practices in 228 plants ..... Feb. 117
Painting tools yellow makes them hard to lose ..... Oct. *150
"Shoeshining" paint onto hard spots ..... Dec. *99
Water tank repainting—see if you can beat this cost ..... Mar. *134
Parking—50 companies tell you how to solve your parking problems ..... Nov. *126

Plant Communications
British film: Chance of a lifetime ..... Apr. *76
Central dispatch system. H. A. J. Lessard ..... Oct. *111
Display your literature in a handy rack ..... Mar *113
Exhibit shows workers how their product is used ..... Apr. *73
Let workers tell your story for you ..... Apr. *62
Pneumatic tube system ..... Oct. *106
Radio instead of paperwork to speed your production .... July *102
Remote control and television run operation—inside plant and out ..... Jan. *129
Today's communication equipment. J. W. St. Andre ..... Sept. *115
Two-way radio controls fork trucks for in-plant materials handling ..... Jan. *128
We pick up a phone—to get real control of operations. G. E.

*Illustrated

Herre ..... Jan. *78

Plant Layout
Belt carries scrap from press to car ..... Nov. *114
How Formfit moves girdles, bras through finishing operations. E. P. Hesser ..... May *96
How Standard Products' press assembly line works. A. A. Laurich Sept. *120
How to move machines fast—and like it. J. W. Colody ....Aug. *94
Jeffrey Mfg. Co.'s new layout. J. H. Garard ..... May *104
Layout changes will be easy with this utility network. A. D. Buschmann ..... Apr. 84
Make production layout changes easy—eliminate vibration Aug. *120
More production in the same space. G. H. Cahoon .... May *94
New layout means less walking, less handling, more output. Edward Zakar ..... Jan. *72
Production upstairs . . . maintenance downstairs ..... May *74
Roof-top ovens save space . Sept. *98
"Run-around" conveyor layout cuts costs. N. H. Daehn ..... Apr. *58
Scale models used in layout to blueprint at Kaiser-Frazer June 88

Plant Location—How to select a plant site that fits the new rules for industrial dispersal ..... Oct. *130
You may be wise to pick a new plant site in 1951. L. C. Yaseen Apr. *B-66

Plant Operation Library
How to build a maintenance program now to fit the national emergency. Winston & Hamlin Mar. *97
How to get your maintenance money's worth ..... Jan. *81
Maintenance control that really controls. W. C. Zinck .... Nov. *115

Plant Pipelines
By tying in five old air compressors we saved $50,000. H. G. Diamond ..... Apr. 166
Cold weather is coming — keep down your heat losses .... Nov. 144
Gang air hose connector for assembly jobs ..... Mar. *113
How to keep air pressure up. C. W. Gibbs ..... July *78
How to pick the right steam trap. C. T. Littleton ..... Mar. 126
How you can tell when filters are dirty ..... Mar. 132
My best maintenance idea. H. M. Bradley ..... Mar. *86
Production upstairs . . . maintenance downstairs ..... May *74
Saving $13,000 a year on water. Del Wolfington ..... Dec. *85
You can insulate duct expansion joints ..... Feb. *98
With system-head curves you can pick your pump to fit the load. T. F. Keating ..... Feb. *118

Plant Protection
Big ones, little ones—all tanks are dangerous ..... May 142
Case study in civil defense . Feb. *86
Exit signs are red again .... Jan. 138
Fire prevention—a two-sided responsibility ..... Aug. 120
From destruction to production —in 38 days ..... Oct. *100
Going to have a fire this winter? Oct. 150
Heat-retardant paints and coatings. J. J. Duggan ..... Nov. *100
How to protect welders in explosive atmospheres ..... May *140
How to protect your plant . July 97
How you can build security into your plant. R. A. Dilley Apr. B-96
Is your plant getting full or part-time protection? Capt. J. C. Mansfield ..... Feb. *77
Mechanical nose protects plant night and day ..... Feb. *124
Six ways to make firefighter training stick ..... Nov. *138
10 ways to prevent flash fires. Ransom Tyler ..... Sept. *138
The watchman and fire protection Sept. 146

Plant Sanitation—Maintenance men discuss problems of training, painting and sanitation. B. J. Beitman ..... June *244

Power—Welded steel "islands" provide temporary power and air Oct. *121
You can save money by taking a new look at your chimney. A. M. Clark ..... Sept. *92

Preventive Maintenance
Five-step battery maintenance. S. K. Lessey ..... Dec. *107
Haphazard replacement of fluorescent lamps. J. W. St. Andre July *108
How to build a maintenance program now to fit the national emergency. Winston & Hamlin (Plant Operation Library) Mar. *97
Once-a-year shutdown for major electrical maintenance. Carmen Proxillo ..... Dec. 104
Productive maintenance. J. W. St. Andre ..... Sept. 142
3-step maintenance program cuts d.c. motor repair costs 80%. David Probst ..... Apr. *64

Process Heating
Electric furnaces cut costs . Mar. *113
Electronic oven bakes cores—but not the workers ..... Feb. *99
If you need lots of steam in a hurry ..... Sept. *113
Induction heating salvages metal Dec. *98
Today's electrical heating equipment. G. A. Van Brunt ....Feb. *104

Production Planning and Control
The business outlook, now to 1960. R. P. Ulin (charts) ..... Oct. 108
Business outlook from now to 1960 . . . these industries are due for fastest growth. R. P. Ulin ..... Nov. 132
Central fileroom saves 'em plenty. C. E. Studen ..... Mar. *77
Cuts paperwork-preparation time from six weeks to fifteen hours. H. A. Stewart ..... Mar. *72
From destruction to production—in 38 days ..... Oct. *100
Incentive plan pays this operator to keep four machines running instead of three. P. B. Jones Oct. *123
New way to load indirect labor. J. F. Gormeley (table) .... Dec. 144
Pneumatic tube system ....Oct. *106
Production planning time cut in half when one man chaperons pilot runs. W. J. Tillman . July *72
Radio instead of paperwork to speed your production .... July *102
Tally board keeps production up June *118
What makes America's industry strong. H. L. Waddell .... Feb. *80
Workers clip coupons to control production ..... Aug. *107

Public Relations
Coming up: labor-management committees. C. W. Boyce . Sept. W-4
Community likes this foundry Apr. *B-94
Conference rooms make seminars click ..... Nov. *304
Corning Glass Works commemorates first 100 years ..... July *200
Go easy on the whistle, it may cost good will ..... Mar. 134
Got an air pollution or smoke prevention problem? .... Aug. 122
How to keep out of union trouble if you use a contractor. J. W. St. Andre ..... Sept. 140
How to solve your parking problems ..... Nov. *126
If you want a good company publication, take those shackles off your editor ..... July *236
Let workers tell your story for you Apr. *62
Visitors get a friendly welcome Dec. *98

Pumps—With system-head curves you can pick your pump to fit the load. T. F. Keating ..... Feb. *118

Q

Quality Control
Better product at lower cost with statistical quality control Mar. *88
Better quality costs us less with statistical control. R. W. Good Apr. *82
How to cut reject costs 80%. D. H. Baum ..... Dec. *74
Magnetic separators remove tramp iron in your process .... Sept. *130
Radioactive waves check thickness ..... Nov. *114
Six ways to better inspection via good lighting ..... July *71
Wired television gives safe, exact control of pouring ..... July *95

Collinson's Cut Soles, Ltd.—cutting shoe soles from hides ..... Aug. *108

Colonial Electric Products, Inc.—you ought to get just as good results as Disston. W. M. Woodworth ..... Sept. 102

Consolidated Freightways — keeps 71 trucks on the go ..... Aug. *70

Convoy, Inc.—fiber tote boxes save space ..... Aug. *72

Corning Glass Works — Commemorates first 100 years ..... July *200

Curtiss-Wright Corp.—extended propeller blade saves 40% labor, 50% material ..... Apr. *72

Custodis Construction Co.—A new look at your chimney. A. M. Clark Sept. *92

De Laval Steam Turbine—3-step maintenance cuts d.c. motor repair costs 80%. David Probst. Apr. *64

With system-head curves you can pick your pump to fit the load. T. F. Keating ..... Feb. *118

Delco Products Div.—one quick flip and fire blanket is ready for use June *120

Despatch Oven Co.—roof-top ovens save space ..... Sept. *98

DeVilbiss Co.—cut costs but not quality Feb. *100

Production planning time cut in half when one man chaperons pilot runs. W. J. Tillman .. July *72

Dexion, Ltd.—how you can make your desk work for you. D. Comino Sept. *290

Disston, Henry & Sons—how to make tools last longer (Maintenance Data Sheet) ..... Feb 126

I still like our cold cathodes. George Van Artsdalen .... Sept. *102

Dorr Co.—if you can't afford a waste-disposal plant ..... Dec. 134

Douglas Aircraft Co.—cuts paperwork-preparation time from six weeks to fifteen hours. H. A. Stewart Mar. *72

Dravo Corp.—space heaters and insulation beat temperatures of 30 below ..... Feb. *99

Dunlop Co. of England—floating foundation for heavy vibrating machinery ..... Sept. *144

Dunlop Rubber Co.—counting small items for packaging ..... Aug. *101

Du Pont de Nemours—doing it with mirrors ..... Mar. *130

I'd pay special attention to these things. H. H. Hayden ..... Jan. 97

Scaffold platform ..... June *138

Eastman Kodak Camera Works—conveyor handles small parts ... Aug. *71

Here's an incentive plan that cuts cafeteria losses. Welrick & Mackay ..... Nov. 110

Production and maintenance chiefs hold weekly pow-wow. K. J. Mackenzie ..... Apr. 84

Scooters—for sudden service Oct. *112

Electric Storage Battery Co.—add years to truck battery life ..... July *101

Five-step battery maintenance. S. K. Lessey ..... Dec. *107

Progress photos ..... Feb. *84

Electrolux Corp.—plastic deflectors give better visibility ..... May *119

Esso Standard Oil Co.—new plant office building built to beat the heat July *76

Fairchild Aircraft Div.—fixed budget controls maintenance costs. Wayne Carroll ..... Jan. *112

See if you can beat this cost Mar. *134

Fantus Factory Locating Service—you may be wise to pick a new plant site in 1951. L. C. Yaseen Apr. *B-66

Federal Telephone & Radio—adjustable pallet racks ..... Apr. *57

Lights show if soldering irons are left plugged in ..... Sept. *98

Movable partitions make flexible paint spray booths ..... June *119

Production upstairs . . . maintenance downstairs ..... May *74

Finch, Jos. S. & Co.—how to protect welders in explosive atmospheres May *140

Fischer & Porter Co.—how to pick the right size butterfly valve . June 140

How to pick the right size steam valve ..... June 142

Fisher Body Div. G. M.—remote control and television run operation—inside plant and out ..... Jan. *129

Ford Motor Co.—multiple-spindle nut runner cuts assembly time by two-thirds ..... Jan. *128

Formfit Co.—multideck conveyors multiply our output. E. P. Hesser May *96

One-way traffic in this stockroom ..... Sept. *97

Fruehauf Trailer Co.—space at a premium? try outdoor storage June 138

General Aniline & Film Corp.—enthusiastic men to run the show. D. E. Pierce ..... Jan. 99

General Aniline Works — once-a-year shutdown for major electrical maintenance. Carmen Prozillo Dec. 104

General Electric Co.—ABC inventory analysis shoots for dollars. H. F. Dickie ..... July *92

Better light for machines .... Aug. *71

Bigger unit load cuts handling and shipping costs 39%. K. I. Oxenrider ..... May *102

Flexible monorail crane handles variety of bar stock .... Sept. *100

Productive maintenance. J. W. St. Andre ..... Sept. 142

Unit sub-station put on a balcony July *118

GMC Truck & Coach Div.—counting caliper speeds inventory of sheet stock ..... June *120

Fire prevention—a two-sided responsibility ..... Aug. 120

General Outdoor Products—community plants designed for low cost Apr. *B-93

General Radio Co.—Is a stroboscope a good maintenance tool? .... Dec. 134

Gisholt Machine Co.—temporary power and air source ..... Oct. *121

Goodrich, B. F. Co.—how to get the most out of rubber hose and belts. W. L. Smith (Maintenance Data Sheets) ..... Apr. 90

Pry bar pulls rolls apart in emergency ..... July *96

Goodyear Tire & Rubber Co.—maintenance men discuss problems of training, painting, and sanitation. B. J. Beitman ..... June *244

Mechanical nose protects plant night and day ..... Feb. *124

Visitors get a friendly welcome Dec. *98

Gould & Eberhardt, Inc.—good men, good tools, good planning. E. A. Munson ..... Jan. 91

Gulf Oil Co.—on-the-floor roller conveyor loads elevators ..... Mar. *112

Gunite Foundries Corp.—one form controls all plant improvements Oct. *146

Hand Knit Hosiery Co.—exit questionnaires help our employee relations. R. P. Kreuter ... July *90

What! standard times for handicraft jobs? R. P. Kreuter Nov. *94

Hauserman, E. F. Co.—central fileroom saves 'em plenty. C. E. Studen Mar. *77

More production in the same space. G. H. Cahoon ..... May *94

Hawaiian Pineapple—let workers tell your story for you ..... Apr. *62

Heins, H. J. Co.—maintenance to justify expenditures it plans. P. K. Shoemaker ..... Jan. 86

Soup kitchen provides hot lunch in small plant ..... July *96

Heppenstall Co.—"ice tongs" handle 30,000 lbs ..... Mar. *112

Hyster Co.—maintenance costs to run about 12% of production labor—if not . . . why? F. A. Brainard Jan. 85

Ingersoll Milling Machine Co. — one ladder rail is better than two Oct. *121

Ingersoll-Rand Co.—how to keep air pressure up. C. W. Gibbs July *78

Interchemical Corp.—choosing the right materials means an economical plant ..... Apr. *B-84

International Business Machine Corp.—easy solution to the washroom problem ..... June *136

Walk-it stool increases worker comfort ..... May *118

Jack & Heints, Inc.—ten ways to trim costs and boost profits .... Dec. *100

Jeffrey Mfg. Co.—making the equipment fit the job. J. H. Garard .... May *104

Johnson-Carper Furniture Co.—15 production ideas that cut costs Aug. *76

Johnson & Johnson—two-way radio controls fork trucks for in-plant materials handling ..... Jan. *128

Kaiser-Frazer—scale models used in layout to blueprint ..... June *88

Kayser, Julius & Co.—new layout means less walking, less handling, more output. Edward Zakar .... Jan. *72

Kearney & Trecker Corp.—uninterrupted production through anticipation of repair needs of the plant. F. J. Trecker ..... Jan. 88

Kellogg Co.—how we budget maintenance for dull and busy seasons. R. C. Weeks ..... Jan. *110

Kenrose Mfg. Co.—Mechanized handling in job shop ..... Aug. *73

Kingan & Co.—my first aim would be control. T. A. D. Jones .. Jan. 96

Koppers Co.—longer life for transformer oils ..... May 140

Lee Rubber & Tire Co.—cooperation and good records. F. Leopold .. Jan. *95

Leeds & Northrup Co.—Hubert Dowling is taken to see his new workplace ..... July *82

Lehigh Structural Steel Co.—bridge in the way, so crane runway makes S-curve ..... Nov. *98

Slanted window helps crane operators ..... Dec. *99

Liberty Mutual Insurance Co.—How you can control traffic if you have a disaster. C. A. Goodwin Oct. *232

Lincoln-Mercury Div.—who says maintenance men aren't interested in their jobs? ..... July 120

Lockheed Aircraft—built their plant around equipment ..... Apr. *B-92

Refrigerated amplifier room lengthens tube life ..... Dec. *134

Logan-Long Co.—the walls of this modern plant were built lying down, then tilted into position .. Apr. *B-74

Lucas-Milhaupt Engineering — notched-coil silver rings raise brazing output 62%. ..... June *119

Lukens Steel—we centralized our maintenance and cut downtime and costs. H. A. Fohl ..... Apr. 162

Magnavox Co.—it's the extra touch that counts ..... Mar. *132

Maiden Form Brassiere Co.—new quiz puts zip into foremen training program ..... Dec. 124

Refresher training helps us win our war on waste. Kislik & Lateiner ..... Mar. *94

Manning, Maxwell & Moore—my best maintenance idea—how I put it to work ..... Mar *86

Two budgets, two forms control our maintenance costs. H. M. Bradley ..... Jan. *106

Maple Flooring Mfg. Assn.—there's a reason for bumpy wood flooring July 118

Martin, Glenn L. Co.—Safe platform for crane repairs ..... Sept *98

Mathieson Chemical Corp.—grade crossing ..... May *140

Maytag Co.—display your literature in a handy rack ..... Mar. *113

Work simplification for everybody saves manpower and materials. J. F. Biggane ..... Mar. *122

Midland Steel Products Co.—Belt carries scrap from press to car .... Nov. *114

Miles Laboratories—Spiral conveyor is missing link ..... Nov. *91

Minneapolis-Honeywell Regulator Co.—Four machines running instead of three. P. B. Jones ..... Oct. *123

Shop tolerances that can be met. Fries & Thorud ..... Sept. *134

Monsanto Chemical—How we scheduled maintenance by the week. C. G. Wyder ..... Oct. *113

Morris, Philip & Co.—better methods that save manpower ..... June *94

*Illustrated

Getting our supplies on pallets saves labor, materials, space. W. C. Foley ..... Feb. *74
Morse Twist Drill & Machine Co.—production equipment to run in clean, safe plant at minimum cost. A. J. Snyder ..... Jan. 84
Motor Products—designed with eye to future and it's economical Apr. *B-80

National Malleable & Steel Casting—electric furnaces cut costs, ease work load ..... Mar. *113

Ohio Match—chemical-type air drying system pays for itself in 2 years. J. M. Neath ..... Apr. *80
Ohio Rubber Co. — integrated system doubled our production. M. D. Covert ..... May *88
Okonite Co.—7½ mile cable fills nine gondola cars ..... May *212
Oran Co.—Just a little plant with big-plant ideas ..... Nov. *104

Packard Motor Car Co.—two heads are better than one ..... Mar. 132
Pangborn Corp—how to find your patterns fast. Harry Zimmerman ..... June *98
Penn Salt—"we can't repair it until the gas clears away" ..... Apr. *88
Perfection Stove—layout changes will be easy with this utility network. A. D. Buschmann ..... Apr. 84
Powder-driven stud-gun speeds machine installations ..... Apr. *73
13 shortcuts to higher productivity ..... Sept. *108
Pesco Products, Borg-Warner Corp.—Keeping methods in step with product improvements ..... Oct. *90
Phileo Corp.—analyze plant, conditions —and yourself. H. N. Johnston ..... Jan. 93
Phillips, Chas. H. Co.—extra flanges increase surface of truck forks ..... June *118
Pitney-Bowes, Inc. — maintenance to produce good employee morale. H. J. Von Brock ..... Jan. 87
Pratt & Whitney Aircraft Div.—Central dispatch system. H. A. J. Lessard ..... Oct. *110
How to move machines fast—and like it. J. W. Colody ..... Aug. *94
A new and better way to store sheetmetal. H. J. Lessard ..... June *116
Phenolic bearing surfaces on heavy sliding parts eliminate wear. ..... Oct. 150
Pressed Metals of America—Scientific stockroom set-up. J. D. Leighton ..... Dec. *110
Preston Brooke & Co.—Chalk-marking of trouser cuffs ..... Aug. *101
Public Service Electric & Gas of N. J.—you can insulate duct expansion joints ..... Feb. *98

Quaker Rubber Corp.—you'll like this Conservation Maintenance Plan for rubber ..... May 142

RCA Victor—new Triple-S campaign ..... May *68
Ramar Dresses, Ltd.—Supplying and servicing the assemblers ..... Aug. *103
Red River Arsenal—now we know what our maintenance workload is. G. L. Merkel ..... Apr. 160
Reid Products Div.—Die degreaser saves time ..... Aug. *73
Riegel Textile Corp.—constant vigil—plus preventive maintenance. J. W. Taylor ..... Jan. 98
Riverside Metal Co.—homemade pick-up device cuts out manual handling ..... Jan. *129
Simple cost control system. J. T. Duffy, Jr. ..... Dec. *92
Robbins & Myers, Inc.—planning to stretch maintenance dollars. J. H. Horstman ..... Jan. 87
Robertshaw-Fulton Controls — better quality costs us less with statistical control. R. W. Good ..... Apr. *82
Robins, A. H. Co.—Big-plant medical treatment for workers at small-plant cost. W. R. Bond ..... Sept. *122
Rome Cable Corp.—Lesson in cleanliness ..... Aug. 116
Russell, Burdsall & Ward Bolt & Nut Co.—Magnetic comparator sorts bolts ..... July *96
Ryan Aeronautical Co.— Weld seams smoothed 10 times faster. Oct. *121

Saco-Lowell Shops—dissolving the snow removal problem ..... Feb. 124
Schick Inc.—Ultrasonic cleaning. C. F. Meyer, Jr. ..... Sept. *119
Seiberling Rubber Co.—a maintenance department to be more than just a fix-it crew. H. P. Schrank ..... Jan. 84
Radioactive waves check thickness ..... Nov. *114
Service & Caster Truck Co.—leveler makes car loading a one-man operation ..... May *119
Sharp & Dohme, Inc.—we really did write our own ticket. J. M. Waligora ..... Jan. 102
We started a budget—now the records show us how to cut costs. T. M. Shea ..... Apr. 168
Smith, A. O. Corp.—fingers instead of forks lift three crates at a time ..... Feb. *98
Smith, Alexander, Inc.—Automatic lubrication supplants oilcan and quickly pays off. C. E. Barrett ..... Dec. *82
Solar Aircraft Co.—Department manned 100% by handicapped workers pays off ..... Aug. 106
If I could write my own ticket. M. Olchoff ..... Jan. 101
Saving $13,000 a year on water. Del Wolfington ..... Dec. *85
Soreng Mfg. Corp.—tests help cut turnover rate in five months. A. R. Michael ..... May *78
Soundscriber Corp.—How a small company builds and uses promotional pools. D. J. Graff ..... Aug. *92
Sperry Corp.—how accident control charts can help your safety record. T. R. Leadbeater ..... June *92
Spicer Mfg. Div. Dana Corp.—New process removes scale from forgings ..... July *198
Sponge Rubber Products Co.—Induction heating salvages metal ..... Dec. *98
Staley, A. E. Mfg.—24-hour-a-day operation of its production equipment. Dr. D. E. Greenfield ..... Jan. 86
Standards Products Co.—Air ejector unloads press ..... Oct. *122
Newly mechanized press line boosts productivity 25%. A. A. Laurich ..... Sept. *120
Standard Railway Equipment Mfg.—new move and load method cuts man-hours by 44%. C. G. Gruendling ..... May *100
Standard Register Co.—You can put new zip in your suggestion program. R. H. Frame ..... Sept. *136
Stanley Home Products, Inc.—maintenance department to fulfill five big responsibilities. J. A. Openshaw ..... Jan. 88
Stone Container Corp. — Paperboard locks palletless unit load ..... Oct. *122
Streeter-Amet Co. — Strain gage scale saves time in weighing operations ..... Sept. *99
Sun Oil Co.—We're scrapping everything we can. P. D. Barton ..... Sept. *84
Surface Combustion Co.—Quick heat from gas-fired units ..... Sept. *99
Sutherland Paper—two new plants that were built of noncritical materials ..... Apr. *B-77
Sylvania Electric Products—how better methods can bring greater output per man-hour ..... Feb. *112
Now we adjust our maintenance budget to production volume. H. W. Zimmer ..... Jan. *116
Radio-active materials. Dr. H. E. Tebrock ..... Mar. 82
Work-factor analysis saves money, time, complaints. P. J. Brady ..... June *110

Telechron, Inc.—better product at lower cost with statistical quality control ..... Mar. *88
Testo Mfg. Co.—A roof garden and fish pool? ..... Oct. *125
Thew Shovel Co.—preventive maintenance to pay if you know the what, when, and how. W. J. Allaback ..... Jan. 89
Tinnerman Products—air-operated dolly handles and tilts reel ..... May *118
Exhibit shows workers how their product is used ..... Apr. *73
How to make a smooth move. Apr. B-99
Mechanical spinning cabinet ups production 300% ..... June *120
Toledo Scale Co.—preventive maintenance to pay off in lower cost of production. W. G. Dollmeyer ..... Jan. 85
Tomfohr Overhead Door Co. — Metal stitching cuts labor cost 65% ..... Nov. *113
Trane Co.—Manpower control charts. James Easland ..... Oct. *136
No hunting in this maintenance stockroom ..... Aug. *97
Tuttle & Bailey, Inc.—we pick up a phone—to get real control of operations. G. E. Herre ..... Jan. *78
Twin Coach Co.—gang air hose connector for assembly jobs ..... Mar. *113

Unistrut Products Co.—cantilever rack eliminates pallets, cuts handling ..... Mar. *112
United-Carr Fastener Corp.—Make production layout changes easy—eliminate vibration ..... Aug. *120
Upjohn Co.—new plant is easy to use, easy to maintain ..... May *114
U.S. Rubber—collapsing drum deflates costs ..... May *129
U.S. Spring & Bumper Co.—Safety device guards open tank ..... Aug. *70

Victor Adding Machine Co.—well-run maintenance to raise productivity, aid industrial relations. Otto Madliger ..... Jan. 87
Victor Products Co.—resistance soldering jig ..... May *118
Tally board keeps production up, stops fluctuation ..... June *118

Ware Laboratories—flexible power system saves its extra cost the first year. A. F. Jones ..... Apr. 174
Warner & Swasey—check your motor ratings on old machine tools ..... June 136
Water Cooling Corp.—Cool hot work areas in sizzling weather ..... July *120
Wayne Pump Co.—We pack four times as fast ..... Sept. *90
Weatherhead Co.—Radio instead of paperwork to speed your production ..... July *102
Werthan Bag Corp. — checklist helps foremen handle personnel problems. W. S. Ferguson ..... June *109
Western Electric—from assembly to storage automatically ..... Mar. *80
How to figure and control moving costs. R. H. McCarthy ..... Apr. *B-102
60% cut in machine noise. W. D. Boynton ..... June *113
10 safeguards to cut bridge crane accidents. Burbank, Spousta & Westermeyer ..... Aug. *84
Westinghouse Electric — air-lift roller section raises work to conveyor ..... June *119
Classroom for trainees has everything ..... Jan. *128
How to cut reject costs 80%. D. H. Baum ..... Dec. *74
How to supply 3000 different voltages. F. J. McLaughlin ..... June *121
How we finance our maintenance program. I. M. Dinger ..... Jan. *104
Is your plant getting full or part-time protection? Capt. J. C. Mansfield ..... Feb. *77
More for your inventory dollar. G. M. Barrow ..... Oct. 93
Pressurized d.c. equipment safe for dusty areas ..... May *119
"Shoeshining" paint onto hard spots ..... Dec. *99
Three handling problems solved by new mobile equipment. L. J. MacDonald ..... July *110
Tilting shelf unloads finished work from punchpress ..... July *95
Westinghouse Lamp Div. — Three-way sorting belt for cartons ..... Aug. *72
Westvaco Chemical Div.—A system to boost maintenance efficiency. E. W. Sutton ..... Aug. *112
Whitehead Metal Products Co.—Suspension arm helps handle kegs ..... Nov. *113
Willard Storage Battery Co.—How to palletize hard-to-handle products. R. E. Gilks ..... Nov. *124
Winchester Repeating Arms Co.—How a large company builds and uses promotional pools. R. I. Metcalf ..... Aug. *92
Woodall Industries—"run-around" conveyor layout cuts costs. N. H. Dachn ..... Apr. *58

York Corp.—sound maintenance to pay a seven-fold dividend. H. E. Britcher ..... Jan. 84
Youngstown Sheet & Tube — weatherproof container protects hose ..... Apr. *72
